HÉLDER GARCIA

JUNIOR SOFTWARE ENGINEER

Dedicated and curious Junior Software Engineer with hands-on experience in web development, API integration, and client collaboration. Currently in the penultimate year of a Software Engineering degree, eager to contribute to impactful digital projects and expand technical expertise in a collaborative, real-world environment.

PROFESSIONAL EXPERIENCE

EPOCH MULTIMÉDIA
Web Developer Intern
Mar 2024 – Sep 2024

- Developed and maintained websites using WordPress and custom PHP solutions
- Implemented responsive layouts using HTML5, CSS3, and JavaScript
- Built custom themes and plugins for WordPress
- Debugged and optimized existing code for performance and security
- Integrated third-party APIs and RESTful services
- Maintained MySQL databases and implemented queries for dynamic content
- Collaborated with the design team to turn UI/UX mockups into working features
- Provided technical support and implemented client-requested updates
- Participated in team meetings for sprint planning and task prioritization
- Used version control (Git) for code collaboration and deployment
- Conducted cross-browser and mobile compatibility testing
- Wrote clean, modular code following best practices and accessibility standards
